

Official Pre-Coding Prayer

Ben Awad
Aug 28, 2020

Prayer

Our Haskell, who art in binary,
hallowed be thy type system,
thy monoids come,
thy will be done,
on VSCode as it is in emacs.
Give use this day our daily recursion
and forgive us our side effects and infinite loops,
and lead us not into imperative languages,
but deliver us from mutation,
for thine is the type-system and the monoids
and the pure functions, forever

In the name of filter, map, and reduce, amen.
