Chemistry

Polar Bears 😂

Overview

In this game, you will choose your own adventure in a story involving questions on the following topics:

- Structure and Properties of Matter
- Organic Chemistry
- Energy Changes and Rates of Reactions
- Chemical Systems and Equilibrium
- Electrochemistry

The storyline of this game were carefully crafted with the help of OpenAI's Generative Pre-trained Transformer (GPT-3) 3 which is a textual machine learning model for private, non-commerical, personal use.

How To Play

The early version of the game is published here.
